2. Please identify two areas in which we excelled:

Overall it went very well. ____ gave great support!

3. Please identify two areas in which we could improve:

At design stage, we experienced some problems, which were ultimately resolved. This could have been resolved at design stage with running some modules or tests. There were also delays on the schedule with your sub, so we were behind schedule. We had to do a lot of follow up with the sub, which we feel should have been your responsibility.
