2. Please identify two areas in which we excelled:

The engineer already had a lot of knowledge and experience at the plant and could work on his own with very little guidance to get the work done. The engineer was efficient and provided daily updates on the status he was making. He would ask questions whenever he was unsure about something.

3. Please identify two areas in which we could improve:

Could maybe make sure final copies of drawings are given to the plant a little faster. Give a little more updates on programming status prior to arriving on site.

4. Please share any other comment you might have about this project or JMP in general.

5. How likely is it that you would recommend JMP to a friend or colleague? (1 = not at all likely, 10 = extremely likely)

1 2 3 4 5 6 7 8 9 10

Why did you give us this score?

Very good to work with, great quality, and require little oversight.

JMP Comments: Thanks for the constructive feedback. We've reviewed it with the team to improve the delivery.
