**2. Please identify two areas in which we excelled:**

Quality and delivery were good.

**3. Please identify two areas in which we could improve:**

Understanding the functionality, as the original design of the locking pins posed some issues that needed to be addressed. The location of the handle facing the operator was not ideal, possibly catch clothing or a shin. We suggested that the slide pipe be mounted on outward side of the vertical square tubes and to turn the handles inward.
